OPPOSING THE DITCH MEASURE

Correspondence of Hitchcock

was given out here today by the senate Committee on the Pacific Islands and Porto Rico, as bearing on the Rohala Ditch bill. It speaks for itself in emphasizing the opposition of Secretary Hitchcock and of Gov. Dole to the uending Hawaiian Ditch Company's will. I stated in my last letter that Secretary Hitchcock had recommended the defeat of the bill. The following is the language in which he made his recommendation:

Department of the Interior,
Washington, April 5, 1902.
The Chairman of the Committee on
Pacific Islands and Porto Rico,
United States Senate:

Bir: -Under your reference of the 4th instant, I have considered the bill (H. R. 11,997) granting to the Hawaii Ditch Company, Limited, the right of way ever the public lands in the island of Hawali for ditches, canals, etc., to be

assed for irrigation and other purposes. For the information of your commit-tee I enclose herewith a copy of a let-ter from the Governor of Hawaii, dated the 11th ultimo, protesting against the passage of this or a similar bill. In the main the views of Gov. Dole have my main the views of Gov. Dole have my full approval. Heretofore this Department has been inclined to the view that there is no existing statutory authority for the granting of rights of way through the public lands in Hawaii for wrigation and kindred purposes, but the matter has recently been carefully considered by the Assistant Attorney General for this Department, and in an opinion rendered by that officer yesterday and approved by me, a copy of which is herewith enclosed, it is held that full authority is given by existing laws to the Territorial officers to grant eassements of this character over the taws to the Territorial officers to grant easements of this character over the public lands. I believe, therefore, that there is no necessity for the legislation embodied in the pending bill, and that the Territorial officers will be able under existing statutes to accomplish better results for the public and the people of the Islands than can be attained through any special legislation of this character. I carnestly recommend, therefore, that the pending bill of this character. I carnestly recom-mend, therefore, that the pending bill de not receive the favorable considera-tion of Congress.

Very respectfully, E. A. HITCHCOCK, Secretary.

Executive Chamber,
Territory of Hawaii,
Honolulu, March 11th, 1902.
The Honorable, The Secretary of the
Interior, Washington, D. C.:
Sir:—From the newspapers and other
senroes of information. I should judge

cources of information, I should judge that Mr. Samuel Parker's Kohala ditch bill, H. R. 2307, is being pushed in the House of Representatives with considerable activity. I am informed that Mr. Knox, chairman of the Committee on Territories, is unfavorable to special legislation of the character proposed by the bill, and has expressed himself as favorable to the passage of a bill granting the Territory the necessions authority for dealing with such sary authority for dealing with such

matters
I was glad to learn of Mr. Knox's views in this matter, as Mr. Parker's bill is not only a grant of valuable privileges without reserving anything tion to the Territorial government, but it would be mischlevous in the extreme to the public interests, in that it con-tains no provisions for protecting sources of the water supply, or forests, and no requirements as to water rates for the sale of water to agriculturists for the sale of water to agriculturists, and no protection for the small farmer in distinction from the large sugar planter in the way of opportunities of having water. Its powers of eminent domain over private lands are sweeping without checks or limitations of any kind.

The menace to both water sources and forests of such a sweeping privilege will be understood when it is known that our best and most lasting sources of water exist generally in elesolves of water exist generally in elevated places where, from the grade of the land, the excessive humidity and the land, the excessive humidity and the imperetrable and junglelike character of the growth, and especially the undergrowth, there is not only an immense precipitation of moisture, but from the dense growth and swampy character of the ground thereby inducted a large quantity of water is held and only slowly given out, so that the streams from such sources suffer less is dry weather than others. My information is that this is the character of the summit of the Kohala Mountains. It will be easily seen that ditches or tunnels cut into such a locality would tend to drain away the water rapidly so that the reservoir for furnishing a supply during drouths would be soon destroyed, and the soil becoming dry from such drainage, would cease to support the dense growth so important

the future.

Very respectfully.

SANFORD B. DOLE.

water to any private person or corpora-tion.
Third—The Hawaii Ditch Co. Ltd. shall, without expense to the government, comply with all reasonable requirements of the Commissioner of Public Lands concerning the preservation of the forests, by killing off wild cattle, fencing of lands and planting of trees on all government lands forming the preservation of the forests, by killing off wild cattle, fencing of lands and planting of trees on all government lands forming the preservation of the state of the preservation of the forests by killing off wild condition that they could not pay and their fallure bringing down other houses about them. trees on all government lands forming the watershed through which its ditch-es shall pass. Not less than ten thou-sand trees shall be planted yearly for the first twenty years of the Hawaii Ditch Company's use of right of way across the public lands. Fourth—The Hawaii Ditch Co., Ltd.,

shall divert no water, by tunneling or otherwise, from government land, guiches or streams on, or forming any part of the Waimea watershed, nor shall said Hawaii Ditch Co. Ltd. in any way interfere with or interrupt the enjoyment of the vested right of private

parties.

The foregoing I believe covers your objections fully. If not, any reasona-ble change will be gladly made to meet your views of what is right and just, both to the government and to the Ha-wail Ditch Co. Ltd.

You will readily see the desirability of the pending bill becoming a law, as

it will give the company I represent a title that will make them feel secure in the investment of the necessary money to fully develop and properly utilize the water that is now running into the sea, and must continue to do so for a number of years to come, if such legislation as we are now asking for is not lation as we are now asking for is not granted.

Trusting that this proposition will meet with your approval, I have the

honor to be,
Your obedient servant,
J. T. M'CROSSON,
For Hawaii Ditch Company, Limited. He also offered to amend the Parker bill by adding thereto the following

Section 4.-Nothing herein contained shall be construed as granting to or conferring upon the said Ditch Company any right or interest in any water upon any of the public lands in said island of Hawaii, but any rights therein or thereto shall be obtained from the in or thereto shall be obtained from the reported in other industries.

The same condition is to be made between laborers and meriting the only kind obtainable, the mill can hoping that these restrictions nay be entirely abrogated, there has never been any treaty applying restrictions to these islands. If no distinction is to be made between laborers and meriting the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions continued to the only kind obtainable, the mill can hoping that these restrictions hoping that the only kind obtained to the order to the o government of the Territory of Hawaii upon such terms and conditions as may be lawfully agreed upon.

CONCESSIONS COME TOO LATE. If the Parker bill had been originally drawn with all these safeguards and provisions, instead of seeking blanket privileges without restrictions, and to get the government water for nothing after having offered substantial compensation therefor at Honolulu, it might have passed. As it is, so many objections have been raised and suspicions aroused that the probabilities are that it will fail altogether, now that Secretary Hitchcock has ruled that the Territorial authorities have full control

of the matter.

Governor Dole has declired to commit himself to an approval of the bill, even with the above changes added and is to consult Secretary Hitchcock upon the subject on Monday next. ERNEST G. WALKER.

(Continued from Page 1.)

destroyed, and the soil becoming dry from such drainage, would cease to support the dense growth so important to such a water source, which would gradually disappear, to the irreparable damage to the public interests.

There are other objections to the bill in question. It gives no right to take government water but to construct and maintain ditches. This vagueness would result in litigation, for the Territory would oppose the taking of government water unless Congress should clearly grant the same. The bill apparantly confers a perpetual privilege, which, of course, is inconsistent with the law as well as public policy. Moreover, the description of the country through which the ditches are to run is vague, confusing and absolutely inadequate for such a purpose. I trust the bill may be defeated, as it is utterly without merit and would only result; it passed, in prejudice to the public, and would be in the way of intellment handling of the situation in the future.

Yery respectfully.

SANFORD B. DOLE.

Washin wing proposition:
Your objections, as 1 understand that he had left the country in the Gartent to the bill are: First—That it does not provide a money comparisation to the Territory for the privilege granted.

Second—That it does not specifically provide that the homesteadure and settlers shall be treated with the same away, having only his ticket for Hong

ment on the part of the established houses, they feeling that there would houses about them.

The Chinese view the situation with the greatest fear, owing to the fact that the closing of the doors to Chinese laborers has made it impossible to expected the President will have signed hope for any great increase of trade. The older merchants are all drawing in that they expect continued exclusion, and consequently see smaller markets. Kain has in mind a number of changes, for their imports. There has been, in but nothing vital in nature. the opinion of the older men, a great loss to the Territory in the shutting out of the Chinese, and the change in labor conditions. They say that the greatest loss to planting interests is not primarily the increase of wages, but the decrease in the productive work of the hands. One planter said yesterday that where six men, with two more in harvest, were formerly sufficient to work twenty-five acres of rice, they being paid at the rate of \$13 to \$15 a month, now it was necessary to hire twelve men and pay \$25 for a month's work. The work done by the double number, it is asserted, too, is not so good as that of the old force. The men have now no attachment to their work, and leave upon the slightest provocation, saying that there is plenty of

work to be had. In another place, a Chinese sugar plantation, where formerly there were 200 Chinese hands, and this number was sufficient to cut and handle the cane to keep the mill running double time, now with 500 Japanese laborers, the only kind obtainable, the mill can

HILO FARMERS DISCUSS PLANS

HILO, April 25.-Farmers of Hilo and Olan have had their attention turned to investigations of a practical nature by Director Jared Smith, of the Hawalian Agricultural Experiment Stadon. The are that it will fall altogether, now that Secretary Hitchcock has ruled that the last, and was attended by a limited number of the matter.

Mr. Smith speke of the purposes of the Department in the matpurposes of the Department in the mat-ter of Experiment Stations and Farmers' Institutes. He discussed the probable new products of the Islands and was asked and answered a number of ques-tions. Messrs. Furneaux, J. A. Scott and others spoke. At Olaa Monday night Mr. Smith spoqe of diversified agriculture to some sixty farmers, discussing the ba-nama question, the potato blight and many other points of a similar nature. Senator Russel was chairman and with senator Russel was chairman and with Messrs. Ryan, Hobinson and others took part in the discussions of the evening.

TO CONFERENCE COMMITTEE. WASHINGTON, April 18.—Representatives Hitt. Perkins and Clark were today appointed conferees on the parof the House on the Chinese exclusion bill. President Frye tomorrow will probably appoint Senators Platt, Dillingham and Morgan conferees for the Senate. It was first suggested that Penrose, as the chairman of the committee on immigration, would head the conference committee, but as he not represent the spirit of the Platt amendment it is now reported he is to be replaced by Platt.

The conferees are to get to work soon and before the end of next week it is a new exclusion bill. All signs point to The older merchants are all drawing in a recession on the part of the House on lines of business, owing to the fact and the passage of the Senate bill without material change. Representative

PROTESTS AGAINST EXCLUSION WASHINGTON, April 18 .- The following letter from Prince Ching, protesting against the exclusion of Chinese from the Philippines, was today transmitted to Congress by Secretary Root:

"I find on examination that the Philippines are not far from China, and that from the time of the Ming dy nasty, which preceded the present down to today a large number of emigrants have gone there from Fuklen and the two Kuangs, amounting to 100,-000, more or less, and that it is very difficult to put a stop to the coming and going of their families, fellowvillagers and relations. These emi-grants were formerly ill treated and harassed by the Spanish Government, but they were never forbidden to land

or harshly driven back to China.
"Your honorable country has usually the reputation of being lenient, and at present your relations with China are especially friendly. There are places to which the restrictions agreed upon in to be applied to that place also and are to be subjected to these harsh re-Strictions, I fear the good reputation of Sour honorable country will hardly be able to escape injury."

like the following, and every one be the absolute truth. "I had rheumatism for years and tried almost everything, but able to escape injury."

DEAR SIRS: The presence of the horn fly pest in my herd of milch cows has been a cause of serious apprehension to me, both on account of the consequent deterioration in the condition of the cattle and the reduced production of milk. I am peased to inform you that the application of the So Bos-So Kilfly, which I purchased from you a few days since, has already resu ted in a decided improvement in the condition of the cattle, as well as an increase of 20 per cent in the quantity of the milk produced, before the application of the Kiifly. Very truly yours, PAUL R. ISENBERG.

So-Bos-So Kilfly

is a Liquid **Mixture**

designed to protect cows and horses from torture of flies The preparation is positively harmless It is used with splendid results as a disinfectant and germicide. The Electric Sprayer discharges the So-Bos-So (Kilfly) in a fine, broad spray. From 30 to 50 cows can be sprayed in a faw moments. The Electric sprayer is de-

tachable, and thus may be thoroughly cleaned. If your animals are troubled with lice, us- So-Bos-So (Kilfly). It knocks them out. Spray your poultry house with So-Bos-So (Kilfly). It kills lice or any vermin that may infect the fowls. Sufferers from the Horn Fly should give Kilfly a trial. We are sole agents for the Territory of Hawaii.
